

Paper Butter Squishy Template

Print at 100% (actual size). Check: this bar must measure 5 cm.

1 · FRONT

Leave this end open, stuff,
then seal

2 · BACK

Leave this end open, stuff,
then seal

- 1 Print at 100% — do not use “fit to page”.
 - 2 Cut out both pieces along the solid line.
 - 3 Tape the edges together along the dashed line; leave the marked end open.
 - 4 Stuff with cotton or scrap paper, then seal the end.
- Tip: cover the pieces with clear tape first — wipe-clean and squishier.
